

Drainage of Pilonidal Abscess Perianal Abscess Subcutaneous Abscess
Consent Form

Patient Name: _____ Date of Birth: _____

Guardian Name (if applicable): _____ Patient ID: _____

Washington State law guarantees that you have both the right and the obligation to make decisions regarding your health care. Your physician can provide you with the necessary information and advice, but as a member of the health care team, you must participate in the decision making process. This form acknowledges your consent to treatment recommended by your physician.

1 MY PROCEDURE

I hereby give my consent for Dr. _____ to perform a **Drainage of Pilonidal Abscess Perianal Abscess Subcutaneous Abscess** upon me. I understand the procedure is to be performed at the First Hill Surgery Center. This has been recommended to me by my physician in order to diagnose and/or treat an abscess.

I understand that the procedure or treatment can be described as follows:
If indicated, anesthesia may be utilized. Your physician will discuss this with you and a qualified anesthesiologist will be available at the time of surgery to review your anesthetic.

The affected area will be numbed with local anesthesia. An incision will be made to drain the infected area. Debridement of the wound may occur to promote drainage. A culture may be obtained to help guide antibiotic therapy. The wound most often will be left open and/or packed to allow for drainage. In some cases, the wound may be closed with sutures to promote healing.

2 MY BENEFITS

Some potential benefits of this procedure include:

- Reduced risk of severe infection, reduced pain with drainage, promoting healing of the infected area.

While a **Drainage of Pilonidal Abscess Perianal Abscess Subcutaneous Abscess** is often an effective treatment for an abscess, not all conditions, diseases or problems can be diagnosed or treated solely by **Drainage of Pilonidal Abscess Perianal Abscess Subcutaneous Abscess.**

3 MY RISKS

I understand that there are **potential risks, complications and side effects** associated with any surgical procedure. Although it is impossible to list all of them, I have been informed of some of the possible risks, complications and side effects of this procedure.

These could include but may not be limited to the following:

- bleeding, both immediate or delayed, possibly requiring re-operation; infection at the surgical site, possibly requiring further treatment and/or surgery; post-operative pain, both acute and chronic; recurrent abscess; undesired appearance of the wound; delayed healing requiring re-operation.

Some of these risks, complications and side effects are not serious or do not happen frequently. Although these risks, complications and side effects may occur only very rarely, they do sometimes occur and cannot be predicted or prevented by the physician performing the procedure.

4 MY CONSENT

Although most procedures have good results, I understand that **no guarantee** has been made to me about the results of this procedure or the occurrence of any risks, complications and side effects.

I recognize that during the course of treatment, unforeseeable conditions may require **additional treatment or procedures**.

I request and authorize my physician and other qualified medical personnel to perform such treatment or procedures **as required**.

I have chosen to undergo this procedure after considering the **alternative forms of diagnosis and/or treatment** for my condition including no treatment or other procedures or tests. Alternatives to this procedure may include, but are not limited to antibiotics only or other surgical techniques such as aspiration with a needle and syringe. These alternative forms of treatment have their own potential risks, benefits and possible complications.

I certify that I have read or had read to me the contents of this form and will follow any patient instructions related to this procedure.

I understand the potential risks, complications and side effects involved with the proposed **Drainage of** **Pilonidal Abscess** **Perianal Abscess** **Subcutaneous Abscess** and have decided to proceed after considering the possibility of both known and unknown risks, complications, side effects and alternatives.

I have had the opportunity to ask questions and all of my questions have been answered to my satisfaction. I consent to the above procedures as deemed necessary or appropriate by my physician or credentialed provider.
